## Custom Merchandising

If total control over product presentation is a requirement, our design department can work with you to implement your ideas or develop custom merchandising concepts from scratch.

From custom card carriers, POP displays, posters and so much more we can help you maximize your company's gift and loyalty card results.

Unleash your card program's potential. Ask your sales representative to connect you with our Marketing Services department or browse through the Card Merchandising & Promotion pages at [www.valutec.net](http://www.valutec.net).
